

Sprint Review

PROJECT NAME	Dugbet	Sprint	Sprint 3
TEAM	Group 3	DATE	02/12/2023

Member attendance:

- Huynh Huu Phuc
- Tu Canh Minh
- Nguyen Duc Hung
- Hoang Nhu Vinh
- Nguyen Truc Nhu Binh

What went well?	What went wrong?
<ul style="list-style-type: none">o Complete the architecture documento Complete the UI design	<ul style="list-style-type: none">o The project's timeline has been adjusted due to unforeseen circumstanceso The progress of code tasks is slow
What problems or caused the problems?	What can be done differently in the next sprint to improve the project?
<ul style="list-style-type: none">o Several deadlines of other subject slow down progress	<ul style="list-style-type: none">o Speed up implementation tasko Enhance communication between team members

What we could learn:

- How to describe the architecture in term of package diagram and class diagram
- How to apply an agile framework (RUP + Scrum).
- how to use Jira to manage and see the process of the process.
- how to use Figma prototype to represent animation
