========== 01/11, Sprint 1 ==========

Weekly Scrum meeting 2

Platform: Google meet

Team members present:

- Huynh Huu Phuc
- Nguyen Duc Hung
- Nguyen Truc Nhu Binh
- Tu Canh Minh
- Hoang Nhu Vinh

Team members absent: None

Status reports:

- Huynh Huu Phuc
    - Completed tasks
        - Setup github, drive
        - Setup route management
        - Project plan document (subsection 4)
        - Vision document (subsection 3.1, 3.2, 3.3, 3.4)
        - Learning Figma
        - Implement screen FE (splash screen)
        - Implement dialog widgets (email sent, log in)
        - Implement component widgets (string button, widget button, gradient background)
    - To-do task
        - Implement screen FE (transaction and statistic screen)
    - Issues/Obstacles
        - Animation in splash screen does not work

- Nguyen Duc Hung
    - Completed tasks
        - Vision document (subsection 4)
        - Project plan (subsection 2)
        - Learning Figma
        - Jira setup
    - To-do task
        - Implement screen FE (home screen)
        - Implement component widgets (double-notch, header-bar, wallet)

- Hoang Nhu Vinh
    - Completed tasks
        - Learning Figma
        - Learning ML Deploy
        - Project plan document (subsection 1)
        - Vision document (subsection 3.5)
        - Learning GetX (State + Navigation Manager)
    - To-do task
        - Database design
        - Implement Widget:pie chart
        - Implement Widget:arc chart
        - Implement simple OCR

- Tu Canh Minh
    - Completed tasks
        - Vision document (subsection 5, 6)
        - Project plan document (subsection 3)
    - To-do task
        - Database design
    - Issues/Obstacles
        - Personal issues (spend more time prepare competition)

- Nguyen Truc Nhu Binh
    - Completed tasks
        - Edit the Vision document (subsection 1,2) due to new changes
    - To-do task
        - Design UI (event screen, wallet screen)
        - Implement component widgets (nav-bar)
        - Implement screen FE (change password screen, sign in/up screen)
    - Issues/Obstacles
        - Lost connection: unclear whether the requirement part is finished
        - Lack of consistency in theme code, color style and font style

Actions (if any)
- Brainstorm features for premium users:
    Premium user:
    - Able to export file
    - More data entry support: photo (bill), scan in real time,...
    - Unlimited number of target (budget goal)
    - Unlimited number of wallets (có một số lượng ví cố định cùng một loại tự chọn. Ví dụ với ví cố định ngân hàng sẽ có những phí hằng tháng người dùng không cần nhập mà mỗi tháng app sẽ tự động cập nhật, riêng với ví tự chọn người dùng tạo thì không có những chức năng như vậy)

Summary of the meeting
Attendance in LAB:

Take note: Như Bình
Reporter: Đức Hưng

Process:
- 80% of PA1 is finished.
Tasks:
- Review project progress
- Prepare for later PA(s) as much as possible
- Identify problem (tasks are not clear, depend on each other -> delay)

Questions for the TA in the lab:
- Can the documents be customized (add sections, redesign the UI)?
- Ask the teacher about the arrangement of wallets. (How many kind of wallets?)

- Ask about the next PA
